14+ Foundation

We are a NYC-based 501(c)(3) non-profit.

+

Our mission is to develop, build and operate schools and orphanages for children in Africa.

14plusfoundation.org

WHY

14+

Foundation

Our first land grant was provided by the leaders of Zone 14 of Lufansa District, Zambia for the purpose of a school for the children of their community.

+

Approximately 40% of Africans over the age of 14 are not literate. Our goal is to improve this statistic through our projects and programs.

+

The "+" sign represents an additive effect and positive value.

+

14+ represents our commitment to inspire positive lives that reach their full potential.

OUR BELIEFS

Empowering children
through education

+

Volunteerism — we are a dedicated
volunteer effort with shared interests
working toward a common goal

+

Meaningful engagement with
the communities we serve

+

The importance of
arts-based education

+

Quality design
inspiring a difference

Chipakata
Children's
Academy

CHIPAKATA CHILDREN'S ACADEMY
ZAMBIA, AFRICA

CHIPAKATA CHILDREN'S ACADEMY

14+ Foundation's first school in Zambia, Africa

+

180+ children

+

240 acre site, multiple phases

+

Currently Grades 1 to 5, with planned expansion each year

+

Employ and provide housing for 5 full-time teachers

+

Arts-based learning programs

+

Phase 1 opened for classes in January 2015

TIYESEKO WOMEN'S CLUB

14+ Foundation established a micro-financing program to support Tiyeseko Women's Club, a newly-formed community group comprised of nearly 40 local women from the Chipakata Village community, who seek to improve their lives and well-being through various income-producing activities using the financing provided by this program. These activities include seasonal agricultural initiatives as well as hand crafted items for sale such as jewelry, wool hats and blankets.

OUR VISION FOR THE FUTURE

We seek to educate and engage a broader community of people regarding the challenges and opportunities for improved education in Africa.

As our community of supporters is increased, our work can be accomplished on a much larger and more widespread basis throughout Africa, and as a result the impact of our projects and programs will be increased exponentially.

This goal will be achieved through increased funding, a larger force of volunteers and collaborators, and through the benefit of new and expanded strategic partnerships.

MWABWINDO SCHOOL

The building's design is inspired by the tall, singular trees on the surrounding savanna that serve as gathering spaces shaded from the sun of the Central African Plateau. A large, corrugated metal roof canopy will cover a village of mud-brick classrooms arranged around courtyards and an internal street. In addition to the school for 175 students, the program includes a building that will provide housing for eight teachers, a community vegetable garden and playing fields.

MWABWINDO SCHOOL
